

# BECOMING CERTIFIED

## Community Resiliency Model (CRM)<sup>®</sup>

### CERTIFIED CRM TEACHER

After completing the 5-day CRM Teacher Training provided by TRI to become fully certified, participants need to complete the following **6 steps** within the **6 months** immediately following the live training.

### STEPS TOWARD CERTIFICATION

**One:** Complete a question-based assessment that ensures fidelity to the content and skills. This item is due 60 days following the live training (unless informed otherwise by TRI Senior Faculty).

**Two:** Attend 2 out of 3 (one hour each) live certification consultations over zoom for your training group.

- If unable to attend live, credit is also obtained by watching recordings and completing questions.

**Three:** Complete the strength-based resiliency experience requirement.

**Four:** Submit an outline for a proposed CRM Workshop.

**Five:** Submit audience evaluations after conducting a CRM Workshop in your community and/or agency.

**Six:** Submit a referral list of local mental health providers and/or clinics that your audience members can potentially access if needing support beyond what the CRM Skills can provide.

All 6 items can be completed in TRI's Online Learning Portal. Once these steps are completed, the CRM Teacher is certified for 2.5 years following the live training.
