

TRI Co-founder, Laurie Leitch, PhD, has been invited to present the Trauma Resiliency Model at the Bilateral Medical Conference in Tokyo, Japan on October 14, 2011. The presentation is titled "Trauma Resiliency Model: Restoring Resiliency after Large-scale Disasters." The conference is for an invitation-only, small group of military medical leaders from the United States and Japan. Also included at the conference will be a presentation by the Japanese Public Health Command on "The Great Tohoku Earthquake Response (Operation Tomodachi and Radiation Monitoring)." Time permitting, Leitch will also make a presentation to the MEDDAC-Japan staff.
